

# Risk Assessment

## Course Duration : 1 day

### Course Content:

- Legislation—Health & Safety at Work Act Management of Health & Safety at Work Regulations
- Ensuring Risk Assessments are “suitable & sufficient and performed by competent persons”
- HSE 5 steps to risk assessment
- Risk assessment terminology, procedures and documentation
- Identifying hazards, risks and control measures
- Risk rating systems—qualitative and quantitative
- Hierarchy of Risk Control
- Generic and site specific risk assessments
- Safe systems of work and safety method statements
- Risk assessment DVD presentations
- Risk assessment exercises

### Who should attend:

- All employees involved in performing risk assessments and establishing safe working practices

### Benefits of Attendance:

- This course will help employers to demonstrate compliance with their statutory duty to ensure that all work is risk assessed and that safe systems of work are established
- Risk assessments are a legal requirement but they must be “suitable and sufficient and must be performed by competent persons” too many are found to be inadequate and little more than a paperwork exercise.
